RESUMES

I like to build things for people. That is why I have been working as a software developer for 2 years. I have made mobile applications with Ionic Framework, webpages with angular 2+, I have built their backend in different languages from Golang, PHP to JavaScript and their databases in MySQL, PostgreSQL and Firebase.

EXPERIENCE

FreeLancer Software Developer

2017-12 — Present

- Developing a series of freelance web projects including their Backend, Frontend and Designing and implementing MySQL and NoSQL databases.
 - Contributing to some open source projects in their documentation.
 - Design and implement Firebase to an App that was used in school to professors and students.
 - Updated, modified and expanded existing software programs.
 - Made an education app to learn Mathematic, at this moment it can download from Android Play Store
